**PRODUCT NAME:** CAVIUS BUILD-IN BASE, 40MM

**PRODUCT NUMBER:** 11010

## PRODUCT DATA:

The World's smallest, just got smaller!

CAVIUS Build-in base is designed for installation in private homes with CAVIUS alarms. This CAVIUS build-in base fits all CAVIUS 40mm 10 years alarms.

The Build-in base is mounted in a drilled hole in the ceiling and is the first "build in" base, to pass the Fireroom Test.

The operation is convenient and easy, and the build-in base can be installed in 3 different ways!

1. Drill a Ø40mm hole in the ceiling
2. Insert the base with our standard CAVIUS clamps with snap feature, 2 screws (included) or double-sided tape
3. The cover is snapped into the Build-in base

The standard CAVIUS snap features, will substitute original mounting base and allow you to hide much of your alarm into the ceiling.
